Blood TPOUDICS: Cancer, Scrofula, Old Sores. As the blood contains all the elements necessary to sustain life it is important that it be kept free of all impurities, or it becomes a source of disease, poisoning instead of montaining the body, and loss of health is sure to follow, Some poisons enter the blood from exthaut, through the skin by absorption, or

Some poisons enter the blood from sething, through the skin by absorption, or inoculation; others from within, as when waste products accumulated in the system and ferment, allowing disease germs to develop and be taker, into the circulation. While all blood incustes have one common origin, each has some peculiarity to disting when the other. Contagious Blood Poison, Scrofula, Carner, Bloomontion is going and idded blood diseases can be distinguished by a certain serie, inter-resording to the minimation appearing on the skin. Every blood disease, shows some or later on the outside and on the weakest part of the body, or where it finds the least resistance. Many most for the real disease, and attempt a cure by the use of salves, liminents and other external marketimes. Unlikely make and no permanent benefit derived from such treatment.

S. S. S. Nature's own remedy, made of roots and herbs, attacks the disease in the blood, antidotes and heres out all impurities, makes weak, thin blood rich, strong and healthy, and at the same time builds up the general health. S. S. S. is the only purely vegetable blood purifier known, and the only one that can reach deep-scated blood troubles. A record of 50 years of successful curse proves it to be a reliable, unfailing specific for all blood and skin troubles.

BLOGO TOURTES REQUIRE BLOOD REMEDIES; the poison must be completely and permanently even of the disease goes deeper and saps the very life. Mercury, petash and assense the treatment of the disease, are violent poisons, even when taken in small doses—never curs, but the sundy name by adding another poison to the already overburdened, diseased blood.
